

Acero Engineering Inc. (“Acero”), a growing oil & gas facilities engineering company providing engineering, procurement and construction management expertise is currently seeking a motivated and enthusiastic individual to fill one role as **Senior Project Manager (10-20+ years of experience)**.

Acero is focused on facility and pipeline engineering, procurement and construction management services; from concept evaluation to plant start-up. Our core service offering is in-house project management, process, mechanical, electrical I&C engineering, project engineering, procurement, regulatory services and construction management.

Acero maintains a core belief that success depends on the development of long-term relationships, forged by providing clients what they ask for – which is not necessarily the same product across the board.

Our clients are typically looking for quick turnaround, flexibility and fit-for-purpose deliverables, with no unnecessary additional frills.

Why do employees stay at Acero? We provide a flexible and trusting team-oriented environment where hard work, discipline and honesty are encouraged and rewarded. We are driven to provide our clients with exceptional service.

Responsibilities:

- Client and vendor interaction (ie. Managing projects) for numerous oil and gas projects and related facilities
- Direct and utilize Project Engineers and disciplines
- Organize manpower and resources as needed on the various projects that you will be involved with
- Prepare and maintain cost estimates, schedules, philosophies (eg. Design Basis, PEP, PMPP, etc.)
- Coordinate through the design/drafting group - PFD's, P&IDs, Plot Plans, Isometrics and GA's
- Evaluate quotes received for all typical oil & gas facility & pipeline equipment as well as pipeline and/or facility contractor bids
- Effectively utilize your strong knowledge of codes, standards and specifications pertaining to oil and gas industry equipment, vessels, pipe, etc.
- Act as Acero's key technical representative with the client – helping the sponsor maintain an excellent client relationship with open and clear communication
- Understand and work in accordance with Acero's and clients' HSE rules and regulations
- Follow Acero's established operating procedures and protocols (including strict adherence to the Staff Handbook)
- Other tasks/responsibilities, as required

Preferred Education, Experience and Skills:

- Minimum of 10 years as a “Project Engineer” and/or “Project Manager” in Oil and Gas Facilities in Western Canada
- Strong technical skills and working knowledge of discipline-specific skills, codes and standard practices such as; Directive 55, Directive 56, ASME B31.3, CSA Z662, ASME Section 8, API 650, 12 F, 610 etc.
- Experience with skid fabrication and design, equipment lists, line lists, mechanical equipment skids, pressure vessels etc.
- Fabrication shop experience and/or field experience would be an asset
- Pipeline experience would be an asset
- Understanding and working effectively with Word, Excel, Project, Visio, Bluebeam
- Prior experience with the following software would be an asset: HYSYS, CadWorx, etc.
- Excellent team collaboration, interpersonal and leadership skills
- Strong written, verbal, analytical and critical thinking skills
- Proven ability to work under pressure and meet tight timelines as occasionally demanded by our clients

Compensation & Benefits:

Acero offers employees competitive wages and a benefits package. Salary will be commensurate with education and experience.

Interested candidates may submit a resume to: hr@aceroeng.com. No phone calls please.

Please reference “**Senior Project Manager**” in your cover letter and email subject line. Only those being actively considered for employment will be contacted. Only those who are qualified and who are legally authorized to work in Canada need apply.
