Acero Engineering Inc. ("Acero"), a growing oil & gas facilities engineering company providing engineering, procurement and construction management expertise is currently seeking a motivated and enthusiastic individual to fill a permanent role as a **Junior Project Engineer/EIT.**

Acero is focused on facility and pipeline engineering, procurement and construction management services; from concept evaluation to plant start-up. Our core service offering is in-house project management, process, mechanical, electrical, instrumentation and control engineering, project engineering, procurement, regulatory services, civil and structural engineering and construction management.

Acero maintains a core belief that success depends on the development of long-term relationships, forged by providing clients what they ask for – which is not necessarily the same product across the board.

Our clients are typically looking for quick turnaround, flexibility and fit-for-purpose deliverables, with no unnecessary additional frills.

Why do employees stay at Acero? We provide a flexible and trusting team-oriented environment where hard work, discipline and honesty are encouraged and rewarded. We are driven to provide our clients with exceptional service.

Responsibilities:

- Creating and maintaining project schedules, engineering manhour estimates, and cost estimates
- Requesting vendor information, compiling and distributing RFQs, evaluating quotes, and recommending purchase awards
- Assisting with the preparation and review of project scope documents, reports, DBM's, PEP's, project kickoff documentation, regulatory applications, etc.
- Assembling construction and engineering work packages with awareness and attention
- Understanding regulatory codes and the implication on Acero's design (e.g. spacing)
- Understanding and working with piping and various equipment specifications
- Understanding HAZOPS and dealing with preparation and close-outs
- Understanding and participating in squad checks
- Communicating effectively with team members and stakeholders (including clients, vendors, regulatory bodies, etc.) – e.g. notifying the appropriate stakeholders of all changes
- Prioritizing workload and being able to handle multiple tasks without falling short on quality or deadlines
- Travelling to a client's field operations, as required
- Other tasks/responsibilities, as required to push the team ball forward

Preferred Education, Experience and Skills:

- Minimum of 1 year working in an EPC environment.
- Co-operative work experience (including field based) is an asset
- Strong ability to navigate drawings (such as P&IDs) would be an advantage
- Understanding and working effectively with Word, Excel, Project, Visio, and PowerPoint
- Excellent team collaboration and interpersonal skills
- Strong written, verbal, analytical and critical thinking skills
- Proven ability to work under pressure and meet tight timelines as occasionally demanded by our clients

Compensation & Benefits:
Acero offers employees competitive wages and a benefits package. Salary will be commensurate with education and experience.

Interested candidates may submit a resume: hr@aceroeng.com. No phone calls please. Please reference "**Junior Project Engineer/EIT**" in your cover letter and email subject line. Only those being actively considered for employment will be contacted. Only those who are qualified and who are legally authorized to work in Canada need apply.
